OUR POLICY

Cynthia Carroll
CEO, Anglo American plc

December 2007

We hold our leaders accountable for the environmental management of our activities.

We expect our line managers and supervisors to provide effective leadership in environmental management whilst recognising that environmental management is the responsibility of all who work for us.

Managers of every business or operation are responsible for the full implementation of the Anglo Environmental Management Framework and participation in the Anglo Peer Review Programme. This requires:

- the allocation of appropriate resources and the provision of training, education, consultation and auditing to ensure compliance;
- the development, implementation and maintenance of environmental policies, programmes and procedures;
- effective environmental impact identification, assessment and control, designed to achieve proactive management of our activities, products and services.

We shall conserve and protect environmental resources through, amongst others, the efficient use of energy and water, minimising waste and reducing pollution.

We shall demonstrate active stewardship of land, freshwater systems and biodiversity with which we interact.

We respect people's culture and heritage

We shall comply with environmental legislation and other requirements to which we subscribe, and develop a culture of improvement.

We commit to open communication with our employees, local communities, contractors, suppliers, investors, business partners and other interested parties to encourage an environmentally responsible culture that reflects intent of this policy.
